

Continuous Contact

with Swintek Duplex Communicators'

The Swintek Mark 200 systems are specifically designed for continuous closed-circuit wireless headset intercommunication, for example between a director and sound, lighting, and stage crews. Swintek provide the perfect behind-the-scenes voice link, and it's so simple there's no button to press — just talk! You can speak and hear at the same time, using any number of stations; sound quality is superb. Swintek communicators are also highly portable and compact for maximum comfort and mobility, with a useable range of at least ½ mile.

For efficiency, for safety, for smooth management, reliable communications are essential: with Swintek it's easy to have continuous contact with everyone who needs to know what is going on — even where noise levels are in excess of 120 dB. Swintek also manufacture sound reinforcement systems and a range of superb radio-microphones with excellent specifications featuring the unique dB-S "noise gate". If you would like to know more about Swintek, please contact Optical & Textile Limited, sole UK importers, for details and a demonstration.
