500-watt
Patt. 60 Flood

To special order only STRAND GERMAN TYPE EQUIPMENT

A complete range of this specialist stage lighting was originally manufactured by Strand Electric Hessenbruch in Germany. Some of the items are shown here. It has been found however that even in the country of its origin demand has been reduced to negligible proportions due to the preference for British types. Only the NVA 500-watt (bottom left) is still available and that to special order.

HOV 2X 500-watt
Horizon Floodlight

SWP 2000-watt Combined
Lens Spot and Effects
Projector

NVA 500-watt 24-volt
Low-voltage transformer
spot

PRO 54 5000-watt
Optical Projector
