## PRODUCT DATA

### Lightpalette™ Operating Software

Lightpalette operating software provides the primary functionality for the Strand 500 Series console platforms. The software comes with 100 intensity channels and 100 moving light attribute channels and can be expanded by means of 50 or 200 channel incremental upgrade packs. Lightpalette provides a maximum of 1500 intensity channels (plus 500 attributes) for the standard 520, 530 and 550 consoles and 2000 intensity channels (plus 2000 attributes) for the higher specification 520i, 530i and 550i consoles. Operations manual and software is supplied with a choice of languages.

Cat. No.	Description

### Associated Software

#### Operating Software:

##### GeniusPro™

Alternative operating software providing 'Preset' style cue recording can be used in place of Lightpalette which is optimised for command line/tracking style operation..

#### Application Software:

Application software is available to add optional functionality to GeniusPro or Lightpalette operating software at any time. All software packages are described in separate data sheets. Current application software includes:

##### CommuniquéPro™

An application to GeniusPro adding communications protocols that operate with other DMX consoles, remote controls, and central 'event' controllers. Includes MIDI and MIDI Show Control facilities.

##### Networker™

Application software for remote color monitors, remote control and DMX distribution. Includes an Ethernet card for the console, and requires Strand SN100 nodes.

##### Tracker™

Multi-attribute control of any DMX automated lights, scanners and scrollers using the additional wheels and tracker ball controls on the console.

##### Off-line Editor™

A program to prepare memories and system configurations on a remote PC.

##### Reporter™

Provides dimmer configuration and status feedback remotely at a 500 Series console.

##### Server™

Central storage of show files on one console in a networked system of consoles.

##### ShowPort™

Converts Strand show files to and from ASCII or Comma Delimited format. (ShowPort is included with Off-line Editor software)

##### PC™

Allows DOS PCs to operate GeniusPro or Lightpalette with built in Networker for tracking back-up, designer's remote, multi-user, multi console, playback control, etc.

All Strand Software is secured by factory issued passwords
