

BATTERY KITS

A Quartzcolor battery kit gives you 'go-anywhere' lighting with independence from conventional power sources. The Strand 30V nickel

cadmium battery is supplied with a charger, and provides 45 minutes of continuous lighting. Choose between the 250W Pulsar lamphead and the 250W Megalux handlamp.

MIZAR MkII 300/500W FRESNEL SPOTLIGHT

60 250 11 1.8kg

This compact 300/500W spotlight is the smallest focusing fresnel luminaire in the Quartzcolor range, and a very convenient lamphead in ENG kits. Particularly suited to situations where lighting detail, key light or special effects are required, but with the source concealed.

Supplied with 3.5 metres of power cable with in-line switch.

Mizar
