

Berkey Colortran U.K.

For All Your Theatrical Lighting Needs
...with Sensational Performance
at a Sensible Price

CHANNEL TRACK

A new Lighting Control System that permits fast lighting level entry and recording. Digital entry key pads provide instantaneous control of all functions. Up to 1000 cues for each channel may be stored and activated in any sequence. Unlimited submaster capability permits random assignment of channel groups for fast level control.

CONTROL & MASTER/CONTROL PACKS

A unique dimmer pack system is now available from Colortran. A Control Pack with remote two scene preset control of six dimmers is smaller and lighter for trouping ease without sacrificing performance or reliability. The Master Control Pack features a 12 channel 2 scene preset module that includes a dipless split handle proportional manual and timed cross fader.
