

A new dawn in stage lighting

Strand are bringing a new brilliance to the 80's with the exciting introduction of the advanced, but budget-priced, Tempus lighting control.

The slim, sophisticated Tempus control desks and the highly portable, yet sturdy, dimmer packs will spur you on to ever more ambitious production lighting. Professionals on tour or amateurs seeking the highest professional standards will find Tempus ideal.

A new flexibility.

You can choose a 2-preset desk for 12, 18, 24, 30 or 36 control channels, or just a 6-lever control box complete with master fader. Tempus 2-preset desks can always be extended, anytime, by one or more 12 channel extension desks which have no superfluous master faders. With Dimmer packs you can choose from either 6x10A Thyristor dimmers each with twin, shuttered 15A or 5A sockets, or the same size packs with 3x5kW dimmers.

New, timed Dipless Crossfader.

The 2-preset desks feature a dipless crossfader that can, when you wish, be timed for 5 second to 5 minute auto-fades. It is split to allow profiled crossfades or pile-adding of the presets.

Send now for a colour brochure giving the full details of the Tempus range; and also details of demonstrations to be held at:

Aberdeen, Birmingham, Brighton, Bristol, Cambridge, Canterbury, Cardiff, Carlisle, Chichester, Coalville (Leicestershire), Dewsbury (West Yorkshire), Edinburgh, Exeter, Glasgow, Inverness, Kendal (Cumbria), London, Lowestoft, Manchester, Newcastle-upon-Tyne, Northampton, Oxford, Southampton, Southport, Stockton-on-Tees.
