

# 'There are only two kinds of class: First class and no class'

(DAVID O. SELZNICK)

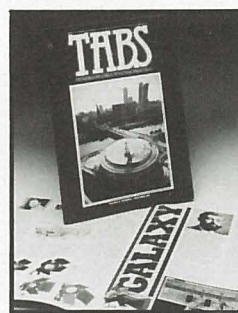

We agree. That's why we've decided that now is the right time to launch our newest Lighting Memory Control System – 'Satellite' – onto the world market.

'Satellite', originally produced for the German and Scandinavian markets, is a direct development from our well-proven 'Duet' system and incorporates all Duet's favourite options as standard. 'Satellite' is set into a craftsman-built walnut veneer desk – we believe that good things deserve a good package.

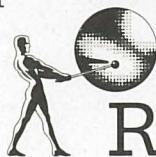

For further information on 'Satellite' contact Rank Strand.

A special 'Satellite' article is just one of the features in the latest issue of 'TABS' – the informative theatre and television technical journal published by

the Rank Strand Group. TABS averages 28 A4 pages per issue,

lavishly illustrated in colour and monochrome, and is sent free-of-charge to all interested readers. For further information contact Rank Strand
