

Just send us your favourite old gel and we'll send you a better one. **FREE.**

Yes, that's right, free. Why? Because we couldn't think of a better way of introducing you to what is probably the best product range of its kind in the world.

This remarkable series of filters will take the heat better than any other filters made. Supergel lasts longer because the colour is saturated throughout the filter material, not just coated on its surface. That's why it is now the recommended material for nearly every theatrical fixture in use today.

Along with two 7½ square samples, we'll send you a free comprehensive lighting kit, designed to help you get the greatest possible creative flexibility from the 70 colours and diffusers in the Supergel range.

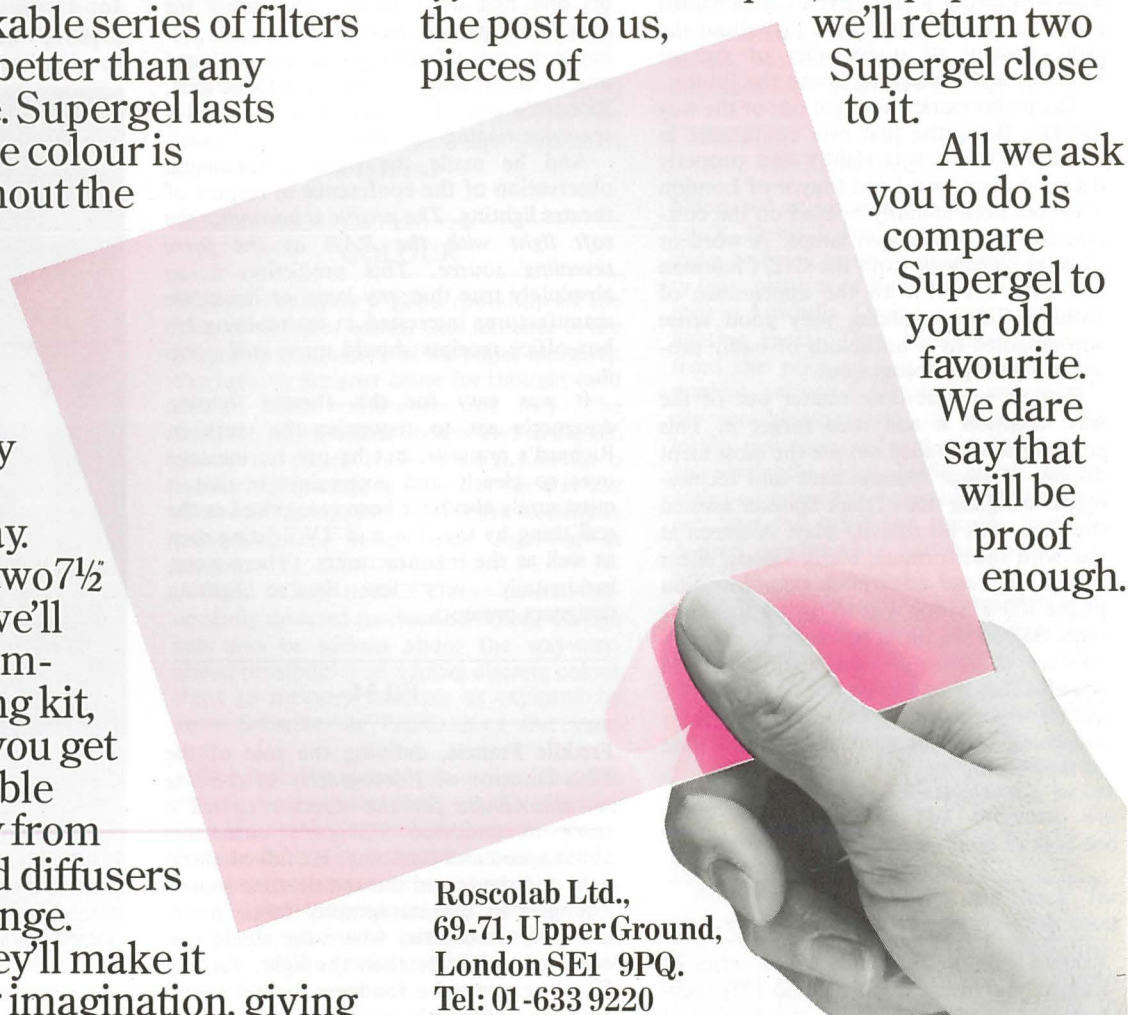

Together they'll make it easier to flex your imagination, giving

you a better chance of adding that distinctive touch to your work.

If you make a note of your favourite colour *from a competitive range of filters* on the coupon, and pop it in the post to us, we'll return two pieces of

Supergel close to it.

All we ask you to do is compare Supergel to your old favourite. We dare say that will be proof enough.

Roscolab Ltd.,
69-71, Upper Ground,
London SE1 9PQ.
