

# the Ultimate Light

# ZipStrip™

For their approval, Underwriters Laboratories required a Safer Strip Light. So, Altman Stage Lighting Co. created ZipStrip™. It gives you safety, plus increased Color Media Life, maximum light distribution, recessed neon indicator lamps,

Durable push-on sockets and interchangeable lamp bars.

ZipStrip™ is truly stageworthy. It's U.L. listed for use with 12V, 75W, MR-16 lamps. Available in 12V and 24V; in up to 4 color circuits and is constructed of hardened extruded aluminum.

ZipStrip™ will make a significant difference in reduced

maintenance. Proving there is no substitute for experience.

To find out more about ZipStrip™, call us at: (914) 476-7987

What's in a Name? Everything when it's Altman.
