

CREATE A COLOR SENSATION

color pro

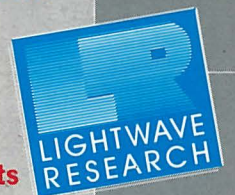

Design and Photography: David Keene

Color Pro . . . paint from its rich dichroic palette to create a constellation of vibrant color. Or throw a subtle pastel wash. Or splash a room in ever-changing hues of sound-synchronized light.

- Non-mechanical color change
- Virtually infinite color possibilities
- Dichroic filtration
- Adjust both hue and intensity with the push of a button
- Sequencing, dimming and programming effects
