

BEWARE OF IMITATIONS

If you thought the Rosco Supergel range was pretty extensive before, we've got some news for you.

A new manufacturing process – unique to Rosco is now being used. The new process locks in the colour like this. It means that the colour cannot 'bleach' under lights.

We've just added ten new colours, all designer selected.
 So welcome to the 100 colour Rosco rainbow, the biggest range of filters in the world.
 To say that no one else can compete with the full force of our spectrum is putting it mildly.
 In plain black and white it's no contest. No one else even comes close.
 What's more, every single one of our colours is not only self extinguishing but also has exceptional colour stability.
 Because instead of being simply surface coated, each colour is produced through our unique co-

extrusion process that literally locks in the colour by sealing it on both sides in a laminate of clear polymer. And to go along with our extended range we've

SUPERGEL

Now in 100 colours

Roscolab Limited, Blanchard Works, Kangley Bridge Road, Sydenham, London SE26 5AQ.
