

# LIGHT + SOUND 89

## PLASA announces seminars for its 12th edition

BY ANDREW P. SHEARER

For the first time in its twelve year history, the Light + Sound Show will be playing host to a series of seminars at the Olympia 2 in London's Kensington section, 10 - 13 September 1989. Produced by the Professional Lighting and Sound Association (PLASA), the show gears itself to the disco, nightclub, theatre, presentation hall, and leisure complex market.

Organiser Tim Chapman believes that the Light + Sound Show seminars are unique in the UK in that they seek to address a wide audience through a single venue. "In most respects, the seminars reflect both the variety of exhibitors and the widening areas of visitor interest at the show," Chapman notes. "It is a long time now since the Light + Sound Show provided a simple forum for DJs and

while one of our sessions will be aimed at this group, we have tailored all of the others to be of interest to theatre technicians, presentation specialists, lighting designers, and live and touring sound engineers."

Among the six different sessions to be held are:

*Moving Lights*, emceed by Peter Wynne Willson, inventor of the original Pancan system. Also in this session will be John Lethbridge of Cerebrum Lighting.

*Projection Systems*, with Lethbridge.

*Installation and Design*, with Mike Snape, technical manager for Alton Towers, and Tony Gottellier, designer of London's Camden Place.

Access to all six sessions is £85, £40 for a whole day including two sessions, and £24 per single seminar (US \$144, \$68, and \$40, respectively).

Organisers are expecting 6,000 attendees this year, a 20% increase over the 5,000 visitors PLASA hosted in 88, and are expecting to occupy 5,300 square meters in the Olympia 2, almost 25% more space than 88.

For more information on the Light + Sound Show 89, contact show organiser David Street, 3D Services, 10 Barley Mow Passage, Chiswick, London W4 4PH. Tel: 01/994-6477.

The following is a provisional exhibitor's list for Light + Sound 89:

<u>Company</u>	<u>Stand Number</u>
