

"FADE TO GREY."

And then reverse the process whenever you want and in whatever combination you like.

Again and again and again.

The Celco 30 and 60 Major utilise the latest in technology to provide the creative lighting designer with the opportunity to plot and execute the most complex lighting patterns quickly, simply and indefinitely.

Whats more, the integrity of the electronic design, featuring Absolute Level Programming (ALP), offers a level of accuracy and repeatability that enables the boards to be used to control analogue colour changers and moving lights.

The Celco 30 and 60 Major can store up to 150 and 300 different scenes respectively. And, unlike other systems, the Celco 30 and 60 Major do not use floppy discs. Instead all programs are stored on a unique Q-Card, the size of an every day credit card.
