**S**trand's new Precision Automated Lighting System (PALS) represents a major advance in lighting technology.

With computer-controlled luminaires incorporating integral microprocessors and motor/gearbox assemblies, PALS achieves high precision positioning to a resolution of one in a thousand — quietly, smoothly and effortlessly. So with PALS, the lighting designer can create and

record complex lighting sequences, safe in the knowledge that they can be accurately repeated time and time again. This also means the designer needs fewer luminaires and shorter set up times. And the entire system can be controlled by one operator.

PALS is the latest in a long line of Strand innovations. For more than 75 years, Strand Lighting has maintained a continually high level of
