

investment in research and development. Every year, we introduce increasingly sophisticated and reliable products — from follow spots for schools and halls to dimmers and controls for theatres, film and T.V. studios.

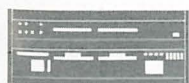

This commitment to creative product development ensures that Strand will always lead the way in entertainment lighting. Leaving others even further behind.

If you'd like to find out more about Strand technology, fill in and return the coupon. It could be the best move you'll make all day.
