

GENERAL SERVICE LAMPS

The Theatre Batten Lamps have been specially designed for use in Strand battens and floats. The filament position and bulb size is the same for all three wattages, ensuring that the reflector is always in focus.

The Angle Burning Lamps, which are the same price as the standard gasfilled, are fitted with a supported filament so that filament sag is eliminated, no matter at what angles the lamps may be burnt on the stage.

200 watts
Osram Gasfilled Lamp
