

THYRISTOR UNIT DIMMERS

200/250 volt AC only.

Constant-rated variable-load Thyristor dimmers with substantial filter. Ratings are for tungsten filament lamps. A single load circuit, to be controlled by a dimmer lever, requires a Type TU. Two or more load circuits, to be controlled either collectively or individually by dimmer levers, require one Type MTU dimmer and Type TU for the remaining circuits. For Up, Down, or to Preset intensity control from parallel-connected push-button sets one Type PTU dimmer is required and Type TU for the remaining circuits.

ALL PRICES ARE SUBJECT TO 10% V.A.T.

		Order Code	£
Type TU.50	5000-watt max.	01 00 504	55-00
Type TU.20	2000-watt max.	01 00 208	40-00
Type MTU.50	5000-watt max.	01 01 501	56-00
Type MTU.20	2000-watt max.	01 01 205	41-00
Type PTU.50	5000-watt max.	01 02 509	71-00
Type PTU.20	2000-watt max.	01 02 202	56-00
1-lever control box with terminals		05 00 116	9-00
2-lever control box with terminals		05 00 124	9-60
4-lever control box with terminals		05 00 140	13-00
6-lever control box with terminals		05 00 167	16-20
8-lever control box with terminals		05 00 183	19-60
10-lever control box with terminals		05 00 203	21-40

For colour cycle dimmers see Mini-2 Auto range page 7

SLIDER DIMMERS 200/250v AC only.
Graduated resistance windings. With scale, internal terminals and conduit/cable entry at base.

	Order Code	£
500/1000 watt	000 546 8	10-10
600/1200 watt	000 547 6	10-10
1000/2000 watt	000 548 4	20-00
500/1000 watt, top exit cord	000 556 3	10-10

ORCHESTRA LIGHTS

The orchestra stand is adjustable in height and has a lighting fitting with a B.C. lampholder and an adjustable spread shade. Supplied unwired.

Orchestra Stand	26 117 04	12-60
Lighting Fitting only	26 118 0T	4-40

EXIT BOXES

5-in high EXIT characters (to B.S.2560). Complete with one B.C. and one E.S. porcelain lampholder, for primary and secondary lighting, opal diffuser and provision for 'Cinemoid' colour filter.

Surface mounting, EXIT	23 500 08	5-90
Surface, but with opal base	23 514 07	6-60
Flush mounting, EXIT	23 515 02	6-80
Surface, EMERGENCY EXIT	23 500 16	6-90
Surface, EMERGENCY EXIT		
opal base	23 514 15	7-60
Flush, EMERGENCY EXIT	23 515 10	7-80

UNDERWATER LIGHTING

GES underwater lampholder for 500 watt internally silvered lamp with 6½-in long ⅝-in dia. spigot
Colour filter holder assembly for above
Cinemoid colour filter cone for above

	Order Code	£
	23 479 03	6-30
	23 476 07	1-20
	31 474 06	0-35

SPARE LAMPHOLDERS

porcelain bodies

Bayonet Cap (B.22), recessed type, for Patt JF/3
Edison Screw (E.27), recessed type, for Patt JF/3, 137, S, S-/F
Goliath Edison Screw (E.40) for Patt 49, 60, 543, 560
Medium Prefocus (P.28), for any Patt 23, 45, 123, 223, 263, 264
Large Prefocus (P.40) for Patt 93, 243, 253, 293
Bi-post (Bi 38) with lever lock, for Patt 243BP, 243TV, 152, 752
Medium Bipost (G.22) lampholder, for Patt 765
GX9-5 lampholder with heat-sink, for Patt 743, 750, 763/4, 773/4

	27 490 04	0-30
	27 491 0T	0-35
	27 492 05	0-80
	27 493 00	0-60

SPARE LENSES

6×9-in PC lens for Patt 23N
6×8-in PC lens for Patt 263W and 264
3½×5-in PC lens for Patt 23, 23W, 52, 523, 523W
10-in dia. Fresnel lens for Patt 143, 243, 243BP, 543
As above, but colouuvred, for Patt 243/C
8×13-in PC lens for Patt 93, 253
4½-in dia. Fresnel lens for Patt 45
10×20-in PC lens for Patt 93N, 293
6-in dia. Fresnel lens (wide) for Patt 123
As above, but colouuvred for Patt 123/C
6×8-in colouuvred Fresnel lens for Patt 263, 763F
8-in dia. Fresnel lens for Patt 223, 223TV Polestar, 743
As above, but colouuvred for Patt 223/C, 743/C
3½×9-in PC lens for Patt 263W, 264W
6×12-in PC lens for Patt 763W, 764W
10×40-in PC lens for Patt 765
8×26-in PC lens for Patt 773, 774
6×16-in PC lens for Patt 501, 763, 764
