

## 300-Series Control Consoles 24/48 and 48/96 channels

Cat. No. 91701  
24/48 Manual Console

### MANUAL/MEMORY

- Manual/Memory Desks offer traditional preset fader operation plus memory
- Two models of up to 48 or 96 manual faders with bump buttons
- 24 fully overlapping submasters
- Modular construction for fully flexible layout. Modules may be arranged to meet any control room layout or operator requirements
- Unique folding design for easy storage
- Backlit keypads for ease of operation
- Powerful Pentium class processors provide performance and reliability
- ShowNet Ethernet functionality optional on all models
- Full support for automated lighting using Trackball mouse
- Compatible with 500 series consoles
- Wide range of accessories
- Single scene or two scene presets

All two tier consoles feature a unique folding design to simplify handling and storage. Touring companies will appreciate the reduced packing space that this feature offers.

All Strand consoles use the proven Genius Pro/Lightpalette operating software offering support for Preset or Tracking Style operation for the first time in a small to mid range console. Motion control is a standard feature of the 300 series and is fully implemented using our Intelligent Trackball/Mouse support.

The processor module is the heart of any 300 series control system. Offered in a wide range of channel capacities and features, all processor modules can be easily upgraded. Powered by Pentium class processors, the 300 series controllers offer the performance operators have come to expect from Strand Consoles.

24/48 Manual Console

## 300-Series Control Consoles 24/48 and 48/96

The flexible modular construction allows controller panels to be configured for optimum operation. Modules may be arranged in any format and may be separated by up to 300 feet.

Cat. No. 66300 Fader Module

Remote fader modules are fully supported with all 300 series consoles. Modules are connected to the system processor using low cost Category 5 cable.
