DIMMERS & CONTROL SYSTEMS

FURSE

REGAL DIMMING SYSTEM

A combination of Dimmer modules and controls to offer master dimming with dipless cross-fade and presetting with control desks separate from Dimmer Racks. All Dimmers are rated at 10 amp, and all circuits are fused. Earth leakage protection is provided for every group of six dimmers. Standard systems utilise a four-wire multiplexed control signal and are supplied with 5 metre linking cable between desk and rack.

Dimmer Racks also available with 0 to 10 control voltage.
