

STRAND 833

500 W FRESNEL SPOT

20 320 04

Inexpensive, variable-spread spotlight utilising the low cost, widely available 500W Class T/1 lamp, or its equivalent. The lens diameter is a full 150mm (6-in) collecting nearly 30% more light than the 115mm (4½-in) lens size of the Patt. 45 which this replaces. The soft edged circular beam is variable from a small, high intensity spot to a medium angle flood by a fast, slide focus knob moving in a fully baffled slot.

The Model 833 incorporates many of the features of the professional theatre Model 803 including four, full length baffled ventilation slots and internal runners, with safety catch, for the Cinemoid/Chromoid colour frame. A full range of accessories is available including a rotatable, four-door barn-door attachment to contain and shape the edges of the soft-edge beam.

Dimensions

Scale 1:10

Order Codes

Specification**Lamphouse**

Pressed steel housing incorporating full length baffled ventilation slots. Internal access provided by temporary removal of the top cover.

Fork

Mild steel, reversible, with a 90mm dia. friction disc and handgrip knob for positive tilt clamp. Fork threaded and supplied with 3/8-in. Whit bolt, washers, and wingnut for compact suspension and swivel clamp.

Lampholder

P.28s medium prefocus porcelain body, fitted with 1m external length of 3-conductor insulated and sheathed flexible cable secured by a strain-relief gland and glass fibre sleeved within the lamphouse.

Lens

150mm dia. short-focus Fresnel lens of borosilicate glass recessed mounted with spring clips from within the lamphouse.

Adjustment

Fully baffled, bottom slide focus of lampholder relative to lens; moved and locked by a heat-resisting handgrip knob.

Colour Frame

Double internal runners with swing safety catch; one 165mm square colour frame supplied for 'Cinemoid' sheet or thin-film 'Chromoid'. Flat front of housing also has thread-inserts for add-on colour change accessory.

Finish

High temperature stoved texture black.

Lamps

500W max. P.28s (medium prefocus) base. 55.5mm light centre length. Class T/1 recommended.
