

STUDIO, PORTABLE & LOCATION LIGHTING

International leadership in TV, film and video lighting

Under the famous Quartzcolor brand name, Strand is the world's largest specialist manufacturer of lighting equipment for the television and film industries. Whether the need is for a single portable spot or a comprehensive saturated rig for a large studio, the answer is in the international Quartzcolor range. Developed over the years in close co-operation with lighting designers and cameramen, Quartzcolor luminaires and accessories ensure reliability and unsurpassed lighting performance.

The news studio at Sky Television, West London, equipped by Strand with Quartzcolor luminaires and M24 memory lighting system.

PORTABLE LIGHTING

The versatile Pulsar, Redhead and Blonde variable beam floodlights are the indispensable workhorses of the television and film lighting engineers, light to handle and efficient in operation. Other purpose-designed luminaires in this range ensure that all studio and location needs in portable equipment are met.

PULSAR MkII 650W VARIABLE BEAM FLOODLIGHT

61 313 01 1.8 kg

The compact Pulsar 650W floodlight has a strong, lightweight housing of heat-resisting polyester/glass fibre. The beam is variable between 37° and 72°, operated by a focus control at the back of the unit. A reliable and versatile lamphead, it is also featured in a number of Quartzcolor portable kits. Supplied with accessory holder, 3.5 metres of power cable and in-line switch; also A1/233 650W/240V lamp in U.K. only.

Pulsar II

Performance guide based on A1/233 650W lamp

	3m		4m		5m		6m	
	Lux	Ø	Lux	Ø	Lux	Ø	Lux	Ø
N	3500	2.00	1975	2.68	1275	3.35	875	4.00
W	925	4.36	525	5.81	350	7.27	250	8.72

N = Narrowest · W = Widest Ø = Diameter
