LANDMARKS IN LIGHTING

DIGITAL SYSTEMS

Intensity, Colour, Movement ...

... NOW THE CHOICE IS YOURS WITH STRAND'S INTEGRATED SOFTWARE SOLUTIONS

- A choice of direct action or command line operating systems with Genius Plus™ or Lightpalette® software
- A choice of intensity control channel capacity
- Additional "attribute" channels used with Tracker™ application software for controlling moving lights and scrollers
- Communiqué Plus™ application package, extending communication capabilities to other equipment
- And ShowNet™, the Strand ethernet network for remote video and signal distribution with Networker™ application software.

Strand's 430/530 control desk working with EC90 Supervisor digital dimmers - offering status reporting, System Wide Control and special security features - combines intensity control with motion control of Hyperbeam 1288/1200 scanners into a comprehensive lighting system.
