

I WANT

a zoom or adjustable aperture lens which produces a perfectly uniform light beam that can be projected in its entirety in any direction at any aperture

a sharp, impeccably focused image at every projection distance, obtained using gobos that can be changed quickly while at the same time being available in an unlimited range, including from different suppliers

a concentrated or diffused light beam, precise and repeatable positioning without deviation and smooth, continuous movement even at the lowest speeds

unrivalled luminosity generated by a professional lamp with a guaranteed long life and constant photometric parameters over time

an infinite choice of colours, from a trichromatic mixing system using selected, saturated colours to special multicolour effects, together with a colour temperature which can be selected from 5600, 3200 or 6000 °K

graphic effects from gobos which can be fixed or rotated, combined or superimposed as desired, fixed or rotating prisms that can be used independently or combined with the gobos as required - prisms which create a real multiplication and separation of the image and three dimensional effects

a modular construction for quick and easy maintenance

total reliability, recognised by thousands of satisfied users worldwide

I want Super Scan Zoom and Golden Scan 3 - two luminaires that give their best precisely when you demand the highest levels of technology and versatility.

Distributor
Pulsar Light of Cambridge Ltd
Henley Road - Cambridge CB1 3EA - U.K.
Tel. +44 (0) 223.66798 - Fax +44 (0) 223.460708

CLAY PAKY SPA
Via G. Pascoli, 1 - 24066 Pedrengo (BG) Italy
