Spirit 8 is a quiet, compact and rugged 8-bus professional PA console, hardly surprising from a company with over 22 years of knowhow in audio design. What may be surprising is that it comes with every feature you could wish for, as standard, at a price that will make the competition wonder how we did it.

■ **PADLESS ULTRAMIC+ PREAMPS** on mono channels. 66dB of gain range provides 28dB of headroom – enough to accommodate virtually any input signal, from the hottest line level electronics to the lowest level condenser mics. 48V PHANTOM POWER individually selectable on each mono channel

■ **HIGH PASS FILTER** at 100Hz with steep 18dB/octave slope, essential for combatting stage rumble and mic popping (mono channels)

■ **4-BAND EQ** with 2 swept mids on every mono input. ■ **2-BAND EQ** on stereo inputs

■ **EQ In/Out bypass switch** on every input

■ **6 AUX buses** with 6 controls, 4 of which are selectable pre- or post-fader at the master. Internal solderless jumpers can be accessed for pre- or post-EQ configuring

■ **8 GROUP BUSES**

■ **4 MUTE GROUPS** for scene setting

■ **Multi-tap PEAK/PFL indicator**

■ **DIRECT OUT** on every mono channel allows multitrack recording or individual effects sends (internally selectable pre- or post-fader for live recording)
