

YOU'VE NEVER COME THIS CLOSE TO PERFECT WIRELESS BEFORE.

Prices start from under £2000 per channel

UHF SYNTH: 64 SELECTABLE FREQUENCIES

UR-5D RECEIVER

Two independent True Diversity frequency-selectable (synthesized) receivers.

Automatic voltage-sensing power supply accepts any AC voltage so you can use Synth anywhere in the world.

64 selectable UHF frequencies. 32 simultaneous channels for fixed installations*, 10 simultaneous channels for mobile.

dbx Noise Reduction** utilizes an RMS detection system to reproduce audio with absolute accuracy.

Balanced XLR outputs and 1/4" unbalanced outputs for each receiver.

Sony ECM-77 lavalier mic element shown.

UH-5 HAND-HELD TRANSMITTER

Samson offers an unrivaled selection of high-performance dynamic and condenser mic elements. Sennheiser MKE-4032 mic capsule shown.

Power On/Off, Mic Input Level and Frequency Selection Controls - all mounted internally to protect you from yourself.

Brass and fiberglass housing.

64 selectable UHF frequencies.

Three-function LED: Low Battery/Transmitter On/Signal Overload.

Tuned, 1/4 wavelength "rubber-ducky" antenna.

Top-mounted Audio Mute switch for easy access.

5-segment LED display detects RF interference and signal strength so you can find the clearest available frequencies to ensure fault-free performance. Another Samson exclusive.

Samson offers the widest selection of high-performance lavalier and headset microphones available. Crown CM-311E headset microphone shown.

Internal trimpot controls for mic and instrument levels.

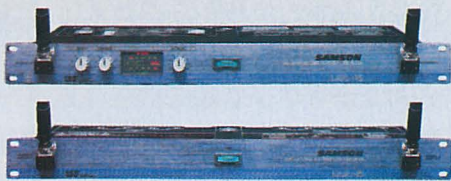

64 selectable UHF frequencies.

Less than 4 oz. with 9V battery installed. And not so bad-looking for a beltpack, either.

Six-pin input connector allows you to interface with the widest variety of mics.

UT-5 BELTPACK TRANSMITTER

Side-mounted Power On/Off switch to prevent accidental shut-off.

UR-5 Single True Diversity Receiver

DA-5L Distribution Amplifier

AN-81A Active Antenna Wall Mount

AN-82 Active Antenna Mic Stand Mount
