

# Strand's Grand Symphony in Light

*The flexible power cable is available with a fitted 15A 3-pin plug, or a roulded Schuko plugtop, or with wire ends to suit other plugs. Our picture shows the lantern end of the cable with its special power connector.*

*First stage in designing a new optical system — set it all up on the bench.*

*Checking lantern surface temperature in the lab.*

*Running a test programme in the Kirkcaldy lighting lab. on a new lens.*
